

am glad that you and your children like  
my Great Uncle's beautiful world. The second edition  
is being published now it was a best seller here and I  
have autographed for many fine people visiting here.  
That he wrote for Mrs Dickerson. They  
respected my likes never tried to change  
my ideas about where nor when to go but  
just wrote encouraging letters joyful ones  
and when I arrived in a city town or country  
expecting a letter unlike any others that  
would have put it off and it came after  
I had gone or not at all and when it did  
come be full of I's, and always a  
little bill 5/10/15 or 20. that I may enjoy  
my self more and not that they expected  
any things as they were keeping up my  
taxes and looking after my welfare just for  
kindness because they knew that they  
were my first and only friends and they  
were careful not to let me loose faith in  
them a kind friend have no age.  
I like my life here but will sail for a  
sea voyage quite soon but never looking  
towards I.A. Miss Momi Long returned  
again to Paris. when I write to her will tell  
her to look through her book for your  
package of letter as you know they arrived  
latter we had finished I send your add that  
- mail them to you.
